

IMPORTANT SAFETY INSTRUCTIONS

READ ALL INSTRUCTIONS BEFORE INSTALLING AND USING THIS PRODUCT.

OPERATION INSTRUCTIONS

Congratulations on your purchase of the Pollenex Showerhead Set. Your showerheads are manufactured from quality materials and will give you years of convenient use in your bathroom.

**CAUTION! SILICONE GLUE MAY CAUSE EYE IRRITATION.
MAY CAUSE SKIN IRRITATION.
MAY CAUSE RESPIRATORY TRACT IRRITATION.**

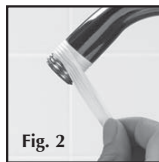

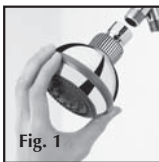

Avoid contact with eyes. Do not handle contact lenses with product on hands. Avoid contact with skin and clothing. Wash thoroughly after handling. Avoid breathing vapor. Use with adequate ventilation.

FIRST AID

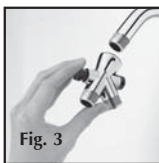

IN CASE OF EYE CONTACT, immediately flush eyes with plenty of water for 15 minutes. Get medical attention. **IN CASE OF SKIN CONTACT**, immediately flush/wash skin with soap and plenty of water. Get medical attention. **IN CASE OF INHALATION DISCOMFORT**, move to fresh air. **KEEP OUT OF REACH OF CHILDREN**. Dispose of unused portion immediately.

INSTALLING THE SHOWERHEAD SET

Step 1: Remove the old showerhead by turning it counterclockwise (Fig. 1). Wipe off any debris from the threaded pipe. Wrap the teflon tape clockwise around the threaded pipe (Fig. 2).

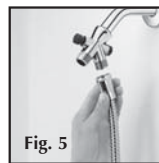

Step 2: Install the diverter valve on the pipe. Turn clockwise with your hand to tighten. **Note: Do not over-tighten.** (Fig. 3). Then, install the new wall-mount showerhead to the forward-facing diverter opening by turning it clockwise and tightening by hand. If additional tightening is required, place protective cloth on the swivel nut and tighten with a wrench (Fig. 4).

Step 3: Attach the ridged nut end of the hose to the downward-facing diverter valve opening (Fig. 5). Attach the other end of the hose to the hand-held showerhead (Fig. 6) and turn clockwise to tighten by hand.

Note: The ridged nut end of the shower hose contains a permanently installed device to protect from the backflow of water which is standard for all showerheads. To function properly the ridged nut end of the hose must be connected to the diverter.

Step 4: You can affix the holder to the surface of tiles, marble, fiberglass, plastic, glass or acrylic with the enclosed silicone glue (**keep out of reach of children**). Before fastening the holder, clean off any debris from the wall using alcohol and make sure surface is clean and dry. Apply the silicone glue to the back of the holder. **If desired, use screw holes provided in holder for added support. (Screws are not included).**

Step 5: Press the holder firmly against the wall for at least 2 minutes (Fig. 7). **Allow the glue to dry for 24 hours before resting the hand-held showerhead in the holder.**

EASY TO OPERATE

Turn the diverter control valve to adjust the spray from the wall-mount only to hand-held only or a combination of both showerheads. (Fig. 8).

CLEANING AND MAINTENANCE

Clean with gentle non-abrasive cleanser and soft cloth.
